

BUMP OUT 2 (BO2)

Classic bump out design offers a panoramic view of cars and outside activity while adding architectural interest. It's narrow profile design fits almost any building layout with a large 19"w x 18"h pass thru opening.

Half height door design acts as built in sneeze guard, and offers protection from extreme weather.

CHOOSE YOUR MODE OF OPERATION

◇ SEMI AUTOMATIC (BO2-SEMI)

By pressing the padded hip plunger, the two door panels conveniently fold inward from the exterior edges, without interfering with the staging area on the interior shelf. The two door panels close when the plunger is released. Economical and easy to maintain.

◇ FULLY AUTOMATIC ELECTRIC (BO2E)

For hands free operation, the operator simply steps into a hip high electronic light beam which opens the door panels automatically. The door panels automatically close when the operator steps away.

SIZE

Window Frame Size: 27-3/4"w x 48-3/4"h

Service Opening: 19"w x 18"h service opening

Rough Opening for Recess Mounting: 28-1/4"w x 49 1/4"h
